

# Ryan Matheus Freitas Eloy

## Full Stack Javascript Developer

+55 (11) 97304-1534 · São Paulo - SP · [ryan.eloy.bss@gmail.com](mailto:ryan.eloy.bss@gmail.com) · [LinkedIn](#) · [Portfolio](#)

## RESUME

Full stack Javascript/Typescript developer with 6 years of professional experience building efficient and scalable web applications. Through a user-centered approach and code quality, I deliver innovative and adaptable solutions, communicating clearly and collaboratively with the team. I am proactive in seeking out challenges and learning opportunities, and seek to contribute my experience to collective success. I've worked in small and large teams, used to code review practices, prioritizing tasks, deadlines and system migrations, having worked with AWS on some projects.

## SKILLS

- Javascript/Typescript
- NodeJS
- ReactJS
- AWS (EC2, SQS, SNS, S3, Lambda)
- Tests (Unit, Integration, E2E)
- NestJS
- Github, Gitlab, Bitbucket (CI/CD)
- Jira (Agile, SCRUM, Kanban)
- SQL (MySQL, PostgreSQL)
- NoSQL (MongoDB, Redis, DynamoDB)
- Linux
- GraphQL
- NextJS
- Docker
- Kubernetes

## PROFESSIONAL EXPERIENCE

### Compass UOL/Avenue Code - São Paulo Desenvolvedor Full Stack

July 2024 - Present

Working on various projects in order to generate value for the company's clients, working both as back-end and front-end, using technologies such as VueJS, NodeJS, Typescript, AWS Lambdas, ReactJS.

### Museu de Arte de São Paulo Assis Chateaubriand (MASP) - São Paulo Desenvolvedor Full Stack

March 2024 - July 2024

Development of MASP's own ticket office as well as a mobile app using React Native for ticket check-in. Integration with payment methods and machines as well as an infrastructure built 100% on AWS.

### MJV Technology & Innovation/Bradesco Seguros - São Paulo Desenvolvedor Back End

July 2021 - March 2024

Development of customer service via chatbot BIA - BradescoSeguros, using artificial intelligence and integration of APIs (WhatsApp).

### VBMC Consultores - Jundiaí Analista de sistemas

September 2019 - July 2021

I worked on the development of internal tools such as an ERP for controlling and managing day-to-day activities. Also a portal for running and recording online meetings, as well as providing services for client companies.
